Announcing Our Head Students for 2019

It is with great pleasure that we announce our Head Students for 2019 are **Frankie Pastiroff** and **Adam Paulsen**. These two outstanding Year 13 students were presented with their badges in the Principal's Assembly today.

Frankie: I'm an enthusiastic member of the Performing Arts programme and 1st XV Football team here at Selwyn. This year I'm aiming to push myself to take more risks in my role as Head Student in order to push myself as a student leader, all the while advocating for and facilitating the vibrant atmosphere present at Selwyn.

Adam: I play Futsal for AFF Men's National League team which won the New Zealand Men's Futsal National League in 2018. My goals for the year are to create an atmosphere at school whereby students love coming to school everyday and also to lead by example through my actions and inspire others to do the same.

A warm welcome to all our new and existing families/whanau in 2019

Announcing our Student Executive for 2019

The House Leaders and Council Leaders for 2019 were also presented with their badges. Together with the Head Students they make up the Student Executive.

Mangopare
House Leaders

Hugh Roxburgh

Honouring Two Selwyn Sportsmen who Soared during the Summer Holidays

Dinesh Kharel

Dinesh was selected for the Auckland U17 Cricket team which won the New Zealand Championships.

Ben McLean

Ben enjoyed spectacular successes in Archery including winning Gold medals in the individual and team matchplay at the 2019 NZ National Championships.

A Message from Auckland Transport

Auckland Transport are aiming for a region free of road deaths and serious injuries where children can safely walk and cycle to school. It is an unfortunate fact that people on foot or bike are the most vulnerable which is why we are aiming for residential and school streets with safer speed limits.

Road deaths and serious injuries for school-aged children 5 to 18 years walking and cycling during weekday school arrival and departure times on local roads have increased 30% between 2013 and 2017. Most of these serious school-aged injuries occurred while walking on main urban 50kph roads during peak travel times. A significant increase was seen in 2017 among Secondary School pedestrians. This is a worrying trend.

As well as the ongoing programme of safety work around school zones, in February AT will be opening public consultation on a bylaw that proposes to change the speeds on approximately 10% of our roads and we are encouraging people to provide a submission. To do this, see this website: [Sign Up for Safe Streets Newsletter](#)
